Website: [hoomanfor.github.io/portfolio](https://hoomanfor.github.io/portfolio)

## SUMMARY

---

Customer-centric, Full Stack Web Developer ready to meet business needs. Experienced with requirements gathering, QA, and competitive analysis.

## TECHNICAL SKILLS

---

HTML5, CSS3, JavaScript, jQuery, Handlebars.js, React.js, Node.js, Express.js, RESTful API Design, Firebase, MySQL, MongoDB, Salesforce Lightning Design System, Shopify Liquid

## PROJECTS

---

### Book Collector

Full Stack

Web App: [serene-forest-85354.herokuapp.com](https://serene-forest-85354.herokuapp.com) - Github: [github.com/hoomanfor/book-collector](https://github.com/hoomanfor/book-collector)

- Search for books you have read or intend to read. Start a collection by saving search results.
- Built using HTML5, CSS3, React.js, Express.js, Node.js, MongoDB, and the Google Books API

### Vonnegut Memory Game

Front End/UI/UX

Website: [hoomanfor.github.io/vonnegut-game](https://hoomanfor.github.io/vonnegut-game) - Github: [github.com/hoomanfor/vonnegut-game](https://github.com/hoomanfor/vonnegut-game)

- Test your memory by clicking each Kurt Vonnegut book, once. 'Top Score' can be 12.
- Built using HTML5, CSS3, Node.js, and React.js

### Meme Machine

Full Stack

Web App: [guarded-gorge-23984.herokuapp.com](https://guarded-gorge-23984.herokuapp.com) - Github: [github.com/hoomanfor/meme-machine](https://github.com/hoomanfor/meme-machine)

- Create a personal account to create custom Memes. Save your favorites to your Library.
- Built using HTML5, CSS3, Node.js, Express.js, Handlebars.js, Passport.js, and MySQL

## RELEVANT EXPERIENCE

---

### Lulu Press, Inc.

January 2019 - Present

- Developed on-boarding guides to help with feature adoption using Pendo, HTML5, CSS3, and JavaScript
- Developed a contextualized Knowledge Base which suggests helpful articles based on which web page the customer is viewing using Pendo, HTML5, CSS3, and JavaScript
- Adapted wireframes and applied Lulu's styling convention into a Salesforce Community 'Help Center' using HTML5, CSS3, JavaScript, and SF's Lightning Design System (i.e. [help.lulu.com](https://help.lulu.com))
- Adapted Lulu's transactional emails into Shopify Liquid (i.e. Shopify's Templating Language)

## EDUCATION

---

University of North Carolina - Chapel Hill, NC - Full Stack Web Development Bootcamp

Shaw University - Raleigh, NC - BA in Mass Communication

Living Arts College - Raleigh, NC - AS in Digital Audio Production and Sound Design
